June 17, 2009

**Attention Contractors  
Change in Electrical Code**

**Effective July 1, 2009**

On Friday 6-12-09, the Florida Building Commission's Electrical TAC Committee voted to adopt the 2008 National Electrical Code effective 7-1-09. The City of Palm Coast will implement the 2008 NEC on the effective date. There are almost 5000 changes to the code, however not all changes are major, the attached link will provide access to the most significant changes. Please revise plans and specifications to reflect the 2008 NEC as the design code and update plan sheets to incorporate design changes needed to comply with the 2008 NEC.

This will affect all permits applied for July 1, 2009 or after.
